FRIDAY

BEHAVIOR MATTERS
It's Co-existence or No Existence

There are people with high IQs who frequently lack the emotional and social intelligence necessary to know how to manage situations and deal with people. A person might be wise in the ways of business, but not at all wise in his or her dealings with fellow human beings.

At this seminar you will learn:
• The secret weapon to gaining endorsement
• We all have behavioral strengths and limitations
• The key to resilience
• The ABCs of optimism

You’ve invested in your business, come prepared to invest in yourself.

WHAT YOUR SPECIALIST WANTS YOU TO KNOW...
What your endodontists wants you to know about dental trauma

Dr. Hoopes completed his Doctor of Dental Surgery (D.D.S.) degree at the University of Iowa. After graduating with honors, Dr. Hoopes remained at the University of Iowa to continue his post-doctoral specialty training in endodontics where he served as the chief resident. He is a member of the American Association of Endodontists, the American Dental Association, and the New Mexico Dental Association. He currently practices in Farmington, New Mexico.

What your pediatric dentist wants you to know about the state of children’s oral health

Dr. Cielo Doherty is an active member of the Cleft Lip and Palate Maxillofacial teams for NM Children’s Medical Services in Farmington and Northern Navajo Medical Center/ NM Cleft Palate Center team based in Albuquerque. She is a Diplomate of the American Board of Pediatric Dentistry, and senior pediatric dentist at Northern Navajo Medical Center. She is also a noted speaker having provided continuing education lectures for dental and medical professionals regionally and nationally. Her most recent speaking engagements have included several IHS National Updates, and presentations to IHS satellite clinics throughout the region. Doherty holds a RDH from Colorado Northwestern Community College, a DDS from the University of Colorado and a MS in Pediatric Dentistry from the University of Minnesota where she was chief resident.

She began her career with the IHS in 1992 and has been stationed at NNMC since 1998. A compassionate and dedicated professional, Dr. Doherty has spent over two decades providing healthy smiles and touching thousands of children’s lives.

SUNDAY

TREATING THE PATIENT WITH AUTISM OR ANXIETY:
How you can help...

Karen A. Raposa, RDH, MBA is currently Clinical Education Manager with Hu-Friedy Manufacturing Company. Karen has spent the last several years of her career lecturing to dental professionals on an international level. She is co-editor of the textbook titled “Treating the Dental Patient with a Developmental Disorder” which was released in August 2012. In addition, her work has been published in both Dr. Esther Wilkins’ textbook titled “Treating the Patient with Autism Or anxiety: How you can help…”. Dr. Wilkins’ textbook was released in 2012 and has been certified by the Central Institute for the treatment of temporomandibular joint dysfunction (TMJ) in the treatment of pain syndromes involved during pregnancy.

ADJUSTING OUTSIDE THE BOX:
CHIROPRACTIC BEYOND THE SPINE

Dr. Paul Hordes has completed special certification in Active Release Techniques (ART), a muscle manipulation technique great for treating athletes and soft tissue injuries. He is also proficient in the Graston Soft Tissue Protocols, as well as Kinesiotaping protocol. Dr. Hordes has been certified by the Central Institute of Human Performance in the treatment of temporomandibular joint dysfunction (TMJ) and in the treatment of pain syndromes involved during pregnancy.
