

Posture and Pain Management in Dentistry

This two-hour session will be discussing the cause of spinal pain. Why this is an important issue in the dental profession as well as what can be done to prevent and treat pain.

Dr. Jeremy Rowse, DC, APC
La Mesa Chiropractic and Rehabilitation

Dental Care and Essential Oils

In this class, discover the top 10 oils for use in the dental setting. We will discuss the aromatic and topical use of essential oils as well as safety and effectiveness. Enhance the patient experience while providing a more therapeutic environment for all staff members. We will go in depth into the science and you leave with specific methods for using essential oils in clinical practice.

Melissa Lea Rietz, CNP, BC-ADM, RYT 200

16.5.1.15 GUIDELINES FOR APPROVAL OF CONTINUING EDUCATION:

A. Approved courses and providers. The following providers and courses are approved for continuing education credits. Professional training programs used by dental assistants for certification preparation in expanded functions are considered to be “approved training programs.” The credit hours for approved training programs may also be used to meet continuing education requirements such as: **(1) scientific meetings or sessions sponsored or recognized by a local, state, regional, national, or international dental, dental hygiene, dental assisting or medical related professional organization.**
